Objective

As a dedicated and ambitious Full Stack Web Developer, I am eager to leverage my skills and knowledge to develop innovative and dynamic web applications. With a strong foundation in both frontend and backend development, I am committed to continuous learning and growth. My determination and enthusiasm drive me to tackle challenges effectively and contribute meaningfully to your team. I am excited about the opportunity to collaborate and build exceptional solutions together.

Technical Skills

Frontend: HTML/CSS, JavaScript, React, Tailwind

Backend: Nodejs, Express, REST APIs, MongoDB, MySQL

Programming Languages: C++, Javascript

Developer Tools: Git & Github, VS code, Postman, Thunder Client, MongoDB Atlas

Soft Skill: Excellent Analytical and Debugging skills, Teamwork, Quick Learner

Projects

PicMart: Digital Image Marketplace | [🔗](#) | *Node.js, React, Cloudinary*

November 2024

- A web platform for buying and selling images, developed using modern web technologies.
- Developed with **Node.js** for the backend and **React** for the frontend .
- Integrated **Cloudinary** for secure image upload and management
- Implemented **JWT** for robust user authentication and session management .
- Key features include image browsing, secure uploads, and user registration .

URL-Shortner | [🔗](#) | *Node.js*

July 2024

- A robust web application designed to simplify URL management through efficient and secure link shortening.
- Developed using **Node.js** to provide a fast and scalable backend .
- Integrated **JWT-based authentication** for secure user access and session handling.
- Offers intuitive features for creating, managing, and tracking shortened URLs .

AI-Image-Generator | [🔗](#) | *React, API*

January 2024

- An innovative web application that leverages AI for generating unique images based on user input.
- Developed with **React** for a dynamic and responsive frontend experience .
- Utilized **OpenAI API** for generating high-quality, AI-driven images .
- Features a seamless interface allowing users to input prompts and generate images in real-time .

News-Mag | [🔗](#) | *React, API*

January 2024

- A dynamic web application that delivers real-time news updates from various sources.
- Developed with **React** and Integrated the **News API** to fetch and display the latest news articles based on user preferences .
